Professional Summary

Full-stack developer who builds and ships production web and mobile applications end-to-end from React/Next.js frontends to backend APIs, authentication, databases, and third-party integrations. Experienced designing PostgreSQL schemas, building REST APIs, and connecting payment gateways and headless CMSs through server-side logic. A self-taught, high-agency builder who has independently shipped real products for business clients, comfortable with ambiguity and owning features from requirement to deployment.

Work Experience

Web Developer Intern – SaranaTech (saranatech.id) – Bali, Indonesia Mar 2026 – Jun 2026

- Built a villa booking platform (Delta Casa Group) with Next.js and TypeScript, integrating the HostHub API for real-time availability and Strapi headless CMS for client-editable content on a PostgreSQL backend, with a WhatsApp-based booking flow.
- Independently developed a tourism company website (Naraya Bali Tour), now live in production (narayabalitour.com).
- Contributed to OEX, an end-to-end event management platform (Next.js, TypeScript, Supabase, Clerk).

Freelance Full Stack Developer · Self-employed — Bali, Indonesia · Jan 2026 – Present

- Built Yoga's Bike Rental end-to-end: owner dashboard, Supabase (PostgreSQL) backend, authentication with Row Level Security, full vehicle CRUD, and an automated WhatsApp ordering flow (yogasbikerental.com).
 - Delivered Dewa Rental Ubud, a responsive multi-vehicle rental site with WhatsApp booking (dewarentalubud.com).
 - Acquired 3 paying clients through direct cold outreach, with no referrals.
 - Owned database schema, authentication, business logic, and deployment across projects.
-

Projects

- *Cafein POS · Full-Stack · Personal Project - cafein.fun*

Full-stack Point of Sale app: designed the PostgreSQL schema (products, orders, inventory), implemented Supabase Auth, built order and inventory logic, and integrated the Midtrans payment gateway (tested end-to-end in sandbox) with server-side payment handling.

Stack: Next.js · TypeScript · Supabase · PostgreSQL · Supabase Auth · Midtrans · Tailwind CSS

- *Temani · Mobile · Team Competition (Pekan IT 2026)*
Family medication-management app. My contribution: built the authentication (Supabase Auth with secure session handling) and the reminder/notification system (Expo Notifications, offline-capable local notifications).
Stack: React Native · Expo · TypeScript · Supabase
 - *Delta Casa Group · Full-Stack · Internship - deltacasagroup.com*
Bilingual villa booking platform integrating the HostHub availability API and Strapi headless CMS on a PostgreSQL backend, with a WhatsApp-based booking flow.
Stack: Next.js · TypeScript · Strapi CMS · HostHub API · PostgreSQL · Tailwind CSS
 - *Naraya Bali Tour · Internship - narayabalitour.com*
Bilingual tourism platform with tour listings, destination pages, and article publishing.
Stack: Next.js · TypeScript · Tailwind CSS · Vercel · SEO
-

Technical Skills

Languages: JavaScript · TypeScript

Frontend: React · Next.js · React Native · Tailwind CSS · shadcn/ui

Backend & APIs: Node.js (Next.js API routes) · REST APIs · Webhooks · Supabase Auth · Row Level Security

Databases: PostgreSQL (Supabase)

Integrations: Midtrans · Xendit · HostHub · Strapi · Clerk · Cloudinary · WhatsApp API

Tools & Deployment: Git · GitHub · Vercel · Expo EAS

Education

- Universitas Primakara · Bali - Bachelor of Informatics (Expected 2027)
- SMK N 1 Petang · Bali - Vocational Diploma, Agricultural Product Processing (2023)

Certifications

- Junior Web Developer Training - VSGA, Digital Talent Scholarship (Komdigi / BPSDMP), 2025
- Point of Sale Web Application Development – WPU Course, 2025

Languages

Indonesian: Native

English: Basic Working Proficiency

- Comfortable reading technical documentation
 - Currently improving written and spoken communication
-
