

I Kadek Buktiasa

Frontend Developer · React · Next.js · TypeScript

Bali, Indonesia | ikadekbuktiasa04@gmail.com | +62 851-9065-7236 | github.com/ax71 | linkedin.com/in/kadek-buktiasa | buktiasa-portofolio.vercel.app

PROFILE

Summary

Frontend Developer with expertise in React, Next.js, TypeScript, and modern web development practices. Proven experience in delivering production-ready web applications for business clients, including booking platforms, reservation systems, and API-integrated solutions. Successfully transitioned from an agricultural studies background to software development through self-directed learning and hands-on project experience. Passionate about building scalable digital products and exploring AI-powered web applications.

WORK EXPERIENCE

Web Developer Intern · SaranaTech (saranatech.id)

Bali, Indonesia · Mar 2026 – Jun 2026

- Independently developed a travel company profile website (Naraya Bali Tour) with destination catalogue, articles, and company information actively used in production (narayabalitour.com).
- Built a full villa booking platform from design to deployment, integrating Hosthub (reservation engine), Xendit (payment gateway), and Strapi (headless CMS), with villa listings, promo codes, and date-blocking.
- Currently developing OEXM an end-to-end event management platform from registration to event completion (Next.js, TypeScript, Supabase, Clerk).
- Delivered all projects independently from provided designs, with no senior developer supervision.

Freelance Frontend Developer · Self-employed

Bali, Indonesia · Jan 2026 – Present

- Acquired first clients through direct cold outreach personally contacting local businesses on Google Maps, securing 3 paid projects without referrals.
- Built Yoga's Bike Rental motorbike rental platform with owner dashboard, full vehicle CRUD, Supabase Auth, and automated WhatsApp ordering flow (yogasbikereental.com).
- Delivered Dewa Rental Ubud multi-vehicle rental website with WhatsApp-based booking integration (dewarentalubud.com).
- Built a company profile website for a vehicle service business with service listings and WhatsApp enquiry flow.
